

# Daventry, UK

For logistics throughout the United Kingdom, Daventry is ideally located to service all major markets. In addition to offering ecommerce fulfilment expertise for the entire product lifecycle, our Daventry advanced logistics center also provides robust reverse logistics capabilities.

## Forward Logistics

Whether you're shipping direct-to-consumer or to retailers, Daventry offers warehousing, transportation and logistics on a global scale. Leverage cloud-based order management software for real-time visibility and control over your inventory.

## Reverse Logistics

Our Reverse Logistics service includes a comprehensive set of options for managing the complete lifecycle of a product. Solutions for repair, refurbishment, relabeling, inspection, and repacking allow you to retain inventory ownership, maintain control and protect your margins.

## Value Added Services

Value-added services are designed to deliver an amazing customer experience. With our broad range of standard and advanced service offerings, we provide our customers a single-provider solution to meet all their logistics and fulfilment needs.
