

TRANSPORTATION FOR BRANDS AND RETAILERS

End-to-End Transportation Solutions

At any given time, 10% of shipments require special attention. A thorough end-to-end transportation strategy with built-in flexibility is critical to managing and correcting exceptions so that your customers are not impacted.

Ingram Micro Commerce is proud to offer a full commerce solution. From order management and fulfillment to transportation management, get the visibility and tools you need to provide a seamless end-customer experience.

FIRST MILE

Ingram Micro Commerce's First Mile solution provides a thorough and compliant inbound strategy, mode optimization, and includes proactive communication around delays and changes.

- Origin Cartage and Drayage
- Air Freight (Parcel, Courier and heavy weight)
- Ocean Freight (full container and LCL)
- Customs clearance
- Destination cartage, drayage and hotshot trucking
- Inbound Transportation (Truckload, LTL)

MIDDLE MILE

Maintain a single pool of inventory for your multi-channel strategy. Ingram Micro Commerce provides order management, supply chain and transportation expertise and management throughout.

- Warehousing and Fulfillment
- Receiving and Storage
- Retail Replenishment
- Direct-to-consumer fulfillment
- Marketplace fulfillment

FINAL MILE

Ingram Micro Commerce's Final Mile solution is designed to delight end-users through easy appointment setting and management, real-time updates, alerts and white glove delivery options.

- Same Day, Next Day, 2 Day and Ground
- Outbound Freight (Truckload & LTL)
- In-home or In-store delivery and setup
- Waste and trash removal
- White glove delivery

BENEFITS

CARRIER MANAGEMENT
Our transportation and freight solutions include carrier management.

We manage carrier relationships, contract renewals and service levels on your behalf, serving as the day-to-day contact for contracted carriers and ensuring the best experience possible for you and your customers.

IMPROVED END-USER EXPERIENCE

With real-time updates, your customers can track their orders in real time, make and change delivery appointments via web portal, receive email and SMS tracking updates and more.
