

2020 Electronics Reuse and Recycling Benefits

We are proud to report the following resource savings and emissions prevention achieved as the result of Ingram Micro's IT Asset Disposition services in 2020.

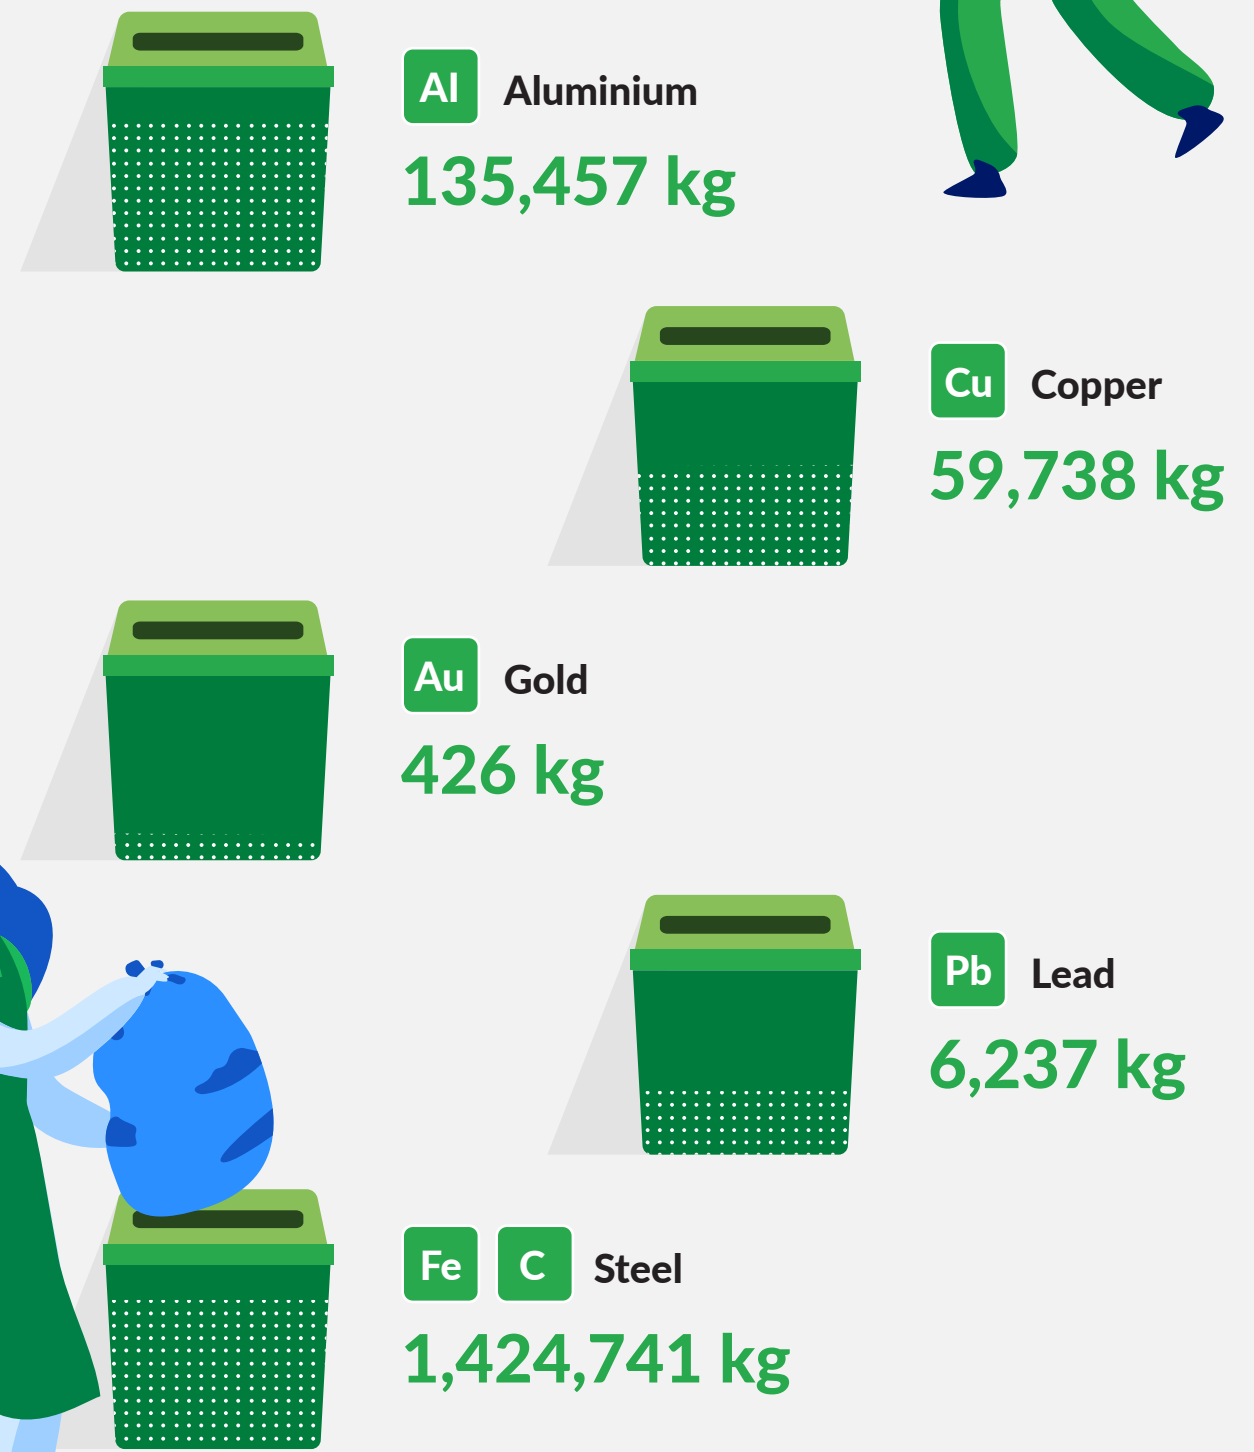

Resources saved / Emissions prevented

Resources savings and emissions prevented based on Reuse and Recycling of Electronics:

Material savings

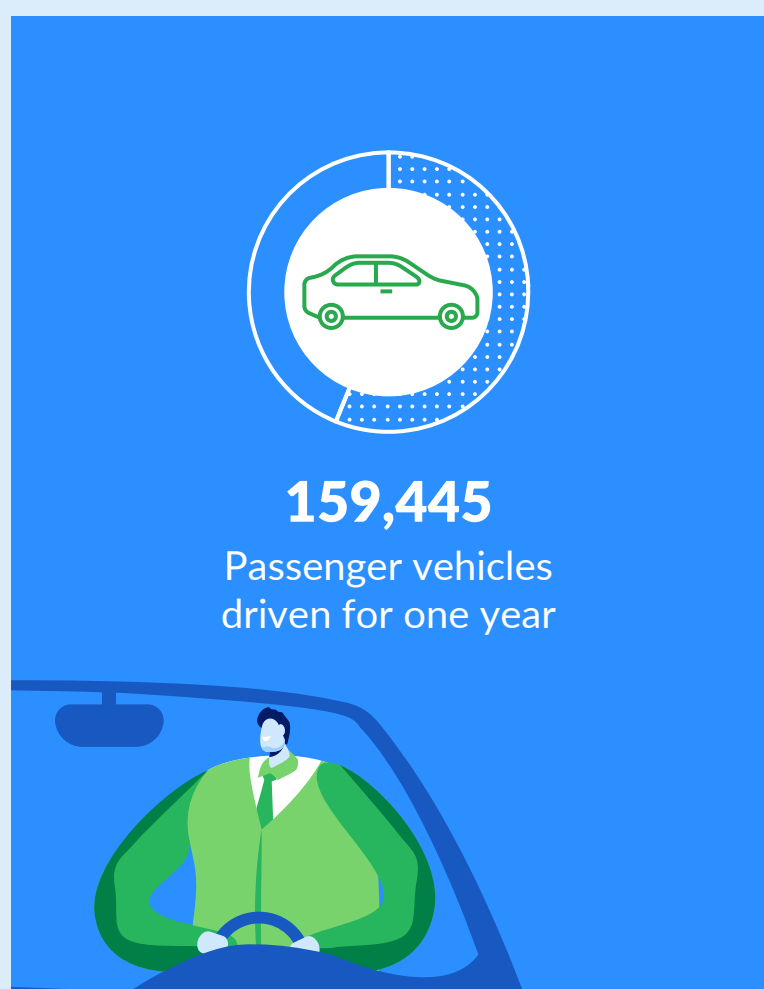

Top 5 Materials Saved from Recycling Electronics:

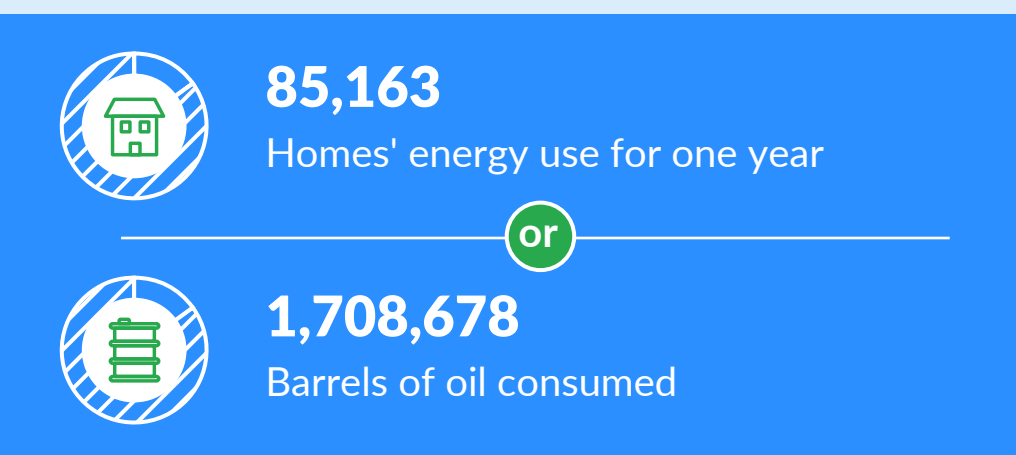

Resource savings equivalents

Total Carbon Dioxide Equivalent savings for Reuse and Recycling equates to:

Annual Greenhouse Gas Emissions from ...

Annual CO2 Emissions from ...

Greenhouse gas emissions avoided by...

Carbon Sequestered by ...
